

TouchTopUp

Pre-Paid Cashless Card Solution

The UK's leading EPoS software developer

TouchTopUp

TouchTopUp is a fully integrated pre-paid cashless card system providing proven benefits in both the public and private sectors, including clients in education, healthcare, leisure, corporate and retail across the UK and Europe.

TouchTopUp is designed and built by leading UK EPoS system provider ICRTouch, with the same reliability and expertise that makes our state-of-the-art TouchPoint touch screen point of sales systems the market leader, and backed by the same network of over 300 authorised resellers.

TouchTopUp offers customers the flexibility to top up accounts either on site with cash or via credit or debit cards on the internet.

TouchTopUp securely on site

The TouchTopUp secure wall mounted unit provides users with a simple and effective way of topping up their card balances with cash.

On-screen prompting assists customers with their transactions. TouchTopUp accepts UK coins (5p to £2) and notes (up to £20), though is easily switched to accept different tender. (Already used and loved in Europe.)

Print and Email daily reports, monitor how much money has been credited and how many people have used the unit. There is a handy USB port makes upgrading simple.

The TouchTopUp unit is made from high grade steel and has twin locks.

TouchTopUp securely online

TouchTopUp.net provides online functionality from desktop, smartphone or tablet for customers to manage and monitor their accounts, including topping up their card accounts and viewing transactions right down to individual purchases.

Touchtopup.net Provides the ability to manage multiple customer accounts from a single login, where you are a member of multiple participating schemes; for example, a single user might have accounts for their childrens' school meals, the company cafeteria and the Golf Club - all accessible and managed via the one login.

Touchtopup.net gives the users the convenience of being able to top up from a credit or debit card or through existing online payment providers (e.g. PayPal).

TOUCH TOPUP

Proven benefits to your business and your customers

Without the hassle of cash, TouchTopUp reduces queuing times and increases the speed of service.

You can deal with larger volumes of customers more easily.

Transactions are faster.

Useful data on sales numbers, income and menu choices.

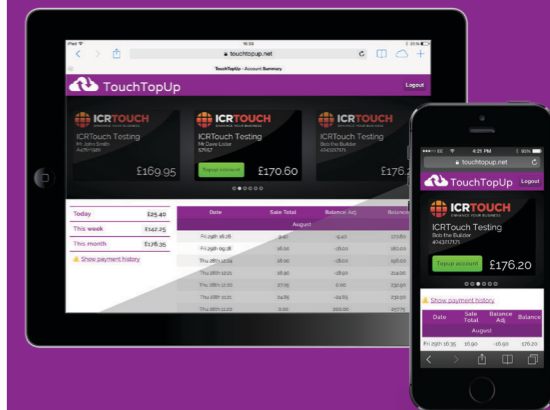

Avoid wastage and better respond to demands and trends.

For schools...

Helps to ensure that the money given to pupils is spent in school.

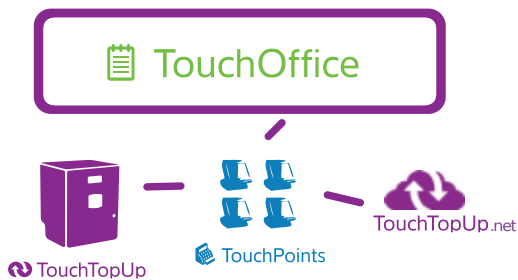

Parents are able to monitor their Children's food choices.

Removing cash from pupils pockets reduces the opportunity for theft or bullying.
